Phiblex 2010: Community Projects

U.S. Navy Lt. Chris Paulett, an optometrist with Marine Aircraft Group 36, treats a patient at Northville 16 Elementary School in Barangay Calampung, Atlu-Bola, Mabalacat, Pampanga in support of Amphibious Landing Exercise (PHIBLEX) Oct. 20, 2010. PHIBLEX 2011 is a bilateral training exercise program between the U.S. military and the Armed Forces of the Philippines that ensures disaster relief efforts are more responsive, efficient and effective.

A priest delivers his invocation during the dedication ceremony held at Anastacio N.F. Dinglas Elementary School in Barangay San Jose, Ternate, Cavite on Oct 20, 2010. Two additional classrooms were constructed at the school as part of an Engineer Civil Action Project during PHIBLEX 2011. PHIBLEX 2011 is a bilateral training exercise that increases both the U.S. and Philippine armed forces' ability to respond quickly and work together effectively to provide relief and assistance in the event of natural disasters and other crises

Philippine and American officials cut a ribbon during the dedication ceremony held at Anastacio N.F. Dinglas Elementary School in Barangay San Jose, Ternate, Cavite on October 20. Two additional classrooms were constructed at the school as part of an Engineer Civil Action Project during PHIBLEX 2011. PHIBLEX 2011 is a bilateral training exercise that increases both the U.S. and Philippine armed forces' ability to respond quickly and work together effectively to provide relief and assistance in the event of natural disasters and other crises.
